File completed test in employee's personnel file.

Are you "In the Know" about chemical hazards? Circle the best choice or fill in your answer. Then check your answers with your supervisor!

- 1. True or False**
Hazardous chemicals can enter the body through the nose, mouth or skin.
- 2. True or False**
There are no laws in place to protect healthcare workers from hazardous chemicals.
- 3. True or False**
A product's SDS tells you the hazards of the product, how to use the product safely and what to do if there is an emergency with that product.
- 4. True or False**
It's important to check the date on the SDS. It should be updated every 10 years.
- 5. What is the best way to store hazardous chemicals in the home?**
 - A. In the original container in a safe place
 - B. In a replacement container with an airtight lid or cap
 - C. In a used, but clean jar
 - D. None of the above
- 6. True or False**
An acute exposure is being exposed to a small amount of a chemical over a long period of time.
- 7. True or False**
The "Right to Know" law requires employers to keep a list of all the chemicals used in the workplace.
- 8. True or False**
A chemical that is described as "corrosive" should be handled with gloves.
- 9. True or False**
Most chemical hazards in the healthcare setting are minor and are no cause for concern.
- 10. Fill in the Blanks**
SDS stands for S _____ D _____
S _____.
