THE CARES HEALTH & WELLNESS EXPO BENEFITS THE CARES SENIOR HEALTH CLINIC

To help sustain services and continue their mission to offer limited primary care to seniors who are 55 and older, low income and have no insurance. The clinic is staffed by volunteer doctors and nurses and helps more than 1600 patients annually by providing medical care such as general physical exams, limited primary treatment, monitoring of chronic illnesses, counseling, and referrals. CARES Senior Health Clinic aspires to connect patients with community resources at little or no cost, arrange for education and prevention on numerous topics related to aging, and provide the highest level of services to those that are under-served in our community.
